MUNICIPAL MANAGER'S REPORT

To the Board of Trustees and Citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury for the year ending December 31st, 1939.

Your present manager, taking office in the middle of the year, cannot take full credit for the very successful year which we have just completed. Much credit must be given to your previous manager who held expenditures to a minimum during his administration.

Money was borrowed for the year for municipal purposes at an interest rate of 59/100 of 1% and for shorter terms at an interest rate of 2½%. This short term borrowing was undoubtedly more economical than to borrow more money than was necessary for the entire year at the lower interest rate.

New analyses and classifications of income and expenditures have been introduced in this report with the hope of making it still more informative for the voters. There were 1058 individual payment checks in the Village General account, four times the number last year, and 384 individual checks in the Water Department. Since publication of all these individual payments would have considerably lengthened the report and added to the cost of printing, the experiment has been tried of omitting them. Complete records of these individual payments are on file at the Manager's office and I would gladly have any interested persons come in and thoroughly inspect them at any time.

Our Chief of the Fire Department, H. W. Caswell, found that it was necessary to resign, due to failing health, making it necessary for your manager to appoint a new chief. John W. Burke was appointed Chief of the Village Fire Department.

Upon learning that we could collect for only a portion of charges for fighting fires in surrounding towns, your manager executed contracts, with the Selectmen of surrounding towns in which our Fire Department will fight fires, to guarantee payment thereof.

Due to a very poor financial year for practically all tax-payers, delinquent taxes for this year exceed those of some previous years, although we have actually collected 93% of this year's taxes.

I have recommended an increase in the 1940 tax rate, as it appeared necessary after a careful study and consideration of the proposed budget. It seems evident that there will be increased expenditures in several departments: for example, for W.P.A. \$1000 was budgeted last year and none spent while this year there are certain essential W.P.A. projects in prospect for the village; for spraying the village trees \$800 was budgeted last year and nothing spent, while this

year it is quite likely that we will have to spray. In addition our income from non-tax revenue sources will be decreased in at least one department. Receipts from rental of village equipment, which totalled \$1,647.96 in 1939, will apparently be reduced to about \$700 in 1940.

Furthermore, your Manager believes it is an unwise and unsound business policy to decrease the tax rate when we still have such a large general debt. We should strive hard to decrease our debt, then the overhead which is now making interest payments, could be used for other municipal services, such as road building, and thereby reduce taxes. This can only be successfully accomplished by the patience and full cooperation of all our citizens.

Our successful year has been made possible by the cooperation of the trustees, other Village officers, heads of Departments, Village employees and Citizens of the Village of Middlebury, and I wish to express my appreciation for their assistance and to our Auditors who greatly assisted in compiling this report.

Respectfully Submitted,

ELWIN C. BOYDEN

Municipal Manager

POLICE REPORT

To the Municipal Manager:

I herewith submit the annual report of the Police Department for the period ending December 31, 1939.

The following arrests were made during the year:

Intoxication	11
Malicious Mischief	1
Vagrancy	2
Breach of Peace	1
Illegal Fishing	2

All persons arrested were convicted.

I have received much valued assistance from the officers of the Motor Vehicle Department, Special Officers of Middlebury Village, High Sheriff and his Deputies in the performance of my duties for which I express my appreciation.

Respectfully Submitted,

RALPH E. KELTON,

Chief of Police of Middlebury, Vt.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

To the Municipal Manager:

I, hereby submit the following report and inventory of apparatus, equipment and supplies on hand as of December 31, 1939.

Nine still alarms have been answered. On each occasion a small amount of damage was done. Seven general alarms were answered; two of which were of serious nature, namely, those at Caswell's garage and the Lazarus block. We were called to five out of town fires.

New coats and boots were bought the past year, as well as 300 feet of new hose and a new smoke mask which has proven its worth. New batteries and a rectifier have been installed in the alarm room at the fire station.

It has been necessary for the Gamewell representative to check the present alarm system several times this year. From his report it is shown to be in a hazardous condition. I would therefore recommend the purchase, as soon as feasible, of a compressed air public alarm system which could be coded to give the location of the fires and so facilitate the answering of them by the firemen. I recommend the purchase of 500 feet of new hose.

INVENTORY

	Estimated, de- preciated value
Building—Fire Station	\$10,000.00

WATER DEPARTMENT

MUNICIPAL MANAGER'S REPORT

To the Board of Water Commissioners and Citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury Water Department for the year ending December 31, 1939.

Our distribution system consists of approximately twenty-five miles of water mains, ranging in size from four to ten inches in diameter, seventy three hydrants, and the following gates: 37 four inch, 40 six inch, 6 eight inch, and 10 ten inch.

When your present Manager took office on May 15, 1939, there was more than twenty one hundred dollars outstanding in delinquent water bills. These delinquent water bills have been reduced to less than four hundred dollars, as the list of delinquent water accounts which follows later in this report will show. I wish also to call your attention to the receipts from water users, as shown by the Treasurer's report, which were larger this year than for any previous year.

After buying a great many replacement tools, a new pick-up truck and making several repairs to the system, we again, this year made a net profit of more than five thousand dollars, as shown by the net profits chart which follows in this report.

The fifty thousand dollars worth of Bristol Notch 3½% and 4% Water bonds were completely paid off, mostly from the Sinking fund and the balance by a loan from the First National Bank of Boston at an interest rate of 59/100 of 1%. Therefore, the sinking fund was wiped out, except for 4% Town bonds in the amount of twelve thousand dollars. It is evident that we would thus get an income of 4%, while paying an interest rate of only 59/100 of 1% for borrowed money.

The major accomplishments in construction for the past year are as follows, namely: cleaned Bristol Notch small brook reservoir for emergency use, made extensive repairs on two dams in Bristol Notch, built crib house over dam in woods at Bristol Notch, cleaned most of algae from Palmer Spring, constructed twelve meter wells, installed seventeen meters, connected four new services, renewed nineteen services, repaired thirty-one services, and repaired thirty two leaks in mains.

Just as in the Village General report, we have included in this report detailed analyses of receipts and expenditures, classified by departments or functions of the Water Department, but we have omitted the list of water-takers and individual checks paid and have included

two charts which we hope will give a more thorough understanding of the financial condition of the Water Department.

I wish to express my appreciation for the cooperation and assistance given by the Board, the employees, and citizens in making this a very successful year for the Water Department.

Respectfully Submitted,

ELWIN C. BOYDEN

TO THE VOTERS OF THE VILLAGE OF MIDDLEBURY:

We have made an examination of the accounts and vouchers of the Village and Water Department, as submitted to us by the Municipal Manager and Treasurer, for the twelve months period ending December 31, 1939, and have reconciled the various cash balances with their respective bank statements.

In our opinion these records fairly set forth the financial condition of the Village and Water Department as of December 31, 1939 and the transactions for the twelve months ending on that date.

ROBERT D. HOPE,

J. WILBER SMITH,

Auditors

Middlebury, Vt.
January 6, 1940

ANNUAL VILLAGE MEETING, 1940

WARNING

The legal voters of the Village of Middlebury are hereby warned and notified to meet at the Town Hall in said Village on Wednesday, January 17th, 1940 at 8 o'clock P. M. to transact the following business, to wit:

First—To elect a Moderator and Village Clerk.

Second—To act upon the reports of the Village Officers submitted by the Auditors.

Third—To see if the Village will vote to appropriate a sum of money for the District Nurse Fund and if so, how much.

Fourth—To see if the voters will authorize the Trustees to spray the trees in the Village at the proper time next Spring and if so, to appropriate the necessary funds.

Fifth—To see if the voters will approve the regulations and restrictions made by the Trustees of the Village at a meeting held on December 27, 1939, known as "Zoning By-Laws of the Village of Middlebury" which regulations and restrictions are printed in the Jan. 5, 1940, issue of the Middlebury Register at Page 4, and are on file in the office of the Village Clerk.

Sixth—To see whether the Village will vote to have the provisions of the Australian Ballot System for the Election of Village officers apply at Village Meetings to be held hereafter in accordance with provisions of Section 3545 of the Public Laws as amended by Section 3 of No. 10 of the Acts of 1935.

Seventh—Will the Village authorize the auditors of the Village to employ the services of an accountant from the office of the auditor of accounts as provided for in No. 55 of the Acts of 1937 to conduct an audit of the accounts of the village?

Eighth—To vote a tax for maintaining and repairing roads and walks in said village.

Ninth—To vote a tax to pay the expenses for the ensuing year and to pay outstanding orders and obligations of the Village and interest.

Tenth—To elect the remaining Village Officers.

Eleventh—To transact any other business proper to be done.

By Order of Trustees,

Lucia C. Hincks,

Village Clerk.

MUNICIPAL MANAGER'S REPORT

To the Board of Trustees and Citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury for the year ending December 31, 1940.

We have now completed another very successful year, with a substantial reduction in indebtedness, after several necessary, but unforeseen, expenditures. The Village debt reduction of \$6,735.78, was possible, only by your vote last year, approving of the budget and tax rate as submitted to you. The detailed expenditures, following in this report, show that we operated successfully this past year with no increase or decrease in indebtedness on a tax rate of approximately \$1.50; the remaining 25 cents in tax rate being applied to debt reduction. If this policy is followed with a debt reduction of about the same amount each year, the Village will be free of debt in approximately ten years. The total reduction in the debt for the Village General and the Water Department amounted to \$8,241.23, which is the largest reduction in indebtedness in any one previous year.

More effort has been expended on delinquent tax collection this year, with the result that approximately \$2000.00 in delinquent taxes was collected this year, as compared with \$1200.00 collected last year. Current taxes collected this year were 93½% of taxes assessed and billed, which is slightly higher than last year's current tax collection, and better than any year back to 1936, beyond which we have no available figures.

Money was borrowed for municipal purposes, during the past year, at an interest rate of ¾ of one percent, which is the lowest interest rate, for borrowed money, in the history of Middlebury.

After several years of criticism of our old dump and its location, which was inaccessible and on Chipman Hill, in a park, where it could be seen before entering the Village, we were able, during the past year, to purchase a new and better dump location, which has been open to the public for the past six months.

The Essex chemical in the Fire Department, which has covered all fires outside the Village limits for several years, is no longer reliable, and our maintenance cost for the past year has been excessive, therefore, it was decided to purchase a used pumper, at a purchase price not to exceed five hundred dollars. We were able to get an exceptionally good bargain in a used 350 gallon per minute pumper which is now operating and will replace the old Essex chemical as soon as the men learn to operate it. The results, which this piece of apparatus can accomplish, will far surpass anything that the old chemical could have done.

The Village Chevrolet truck which was used for several years to patch village roads broke down completely, early last spring, and as the cost to repair this truck would have been exorbitant, we purchased a 1936 Ford V8 dump truck which has not only been used for patching, but was also used as a W. P. A. truck, which trucks must be specially equipped and approved by the Federal Government Safety Division.

To offset some of these unforeseen expenditures, we did not have to spray trees this year, for which \$800.00 was set up in the budget, although there was quite a serious infestation on our elm trees,

which will necessitate spraying this coming year, if we do not want the trees to be injured. There was an \$800,000 W. P. A. fund in the budget from which we had an approximate balance left of \$500,000, as the W. P. A. projects operated were mainly on the Fairgrounds, sponsored by the School Directors, and on Village sidewalks, where the cost of material was paid by the abutters. This W. P. A. sidewalk project is beneficial to the Village as we can get more sidewalk laid at less expense to the taxpayers than would be possible with a Village sidewalk project; the W. P. A. sidewalk project is also beneficial to the abutter, as he can get his sidewalk for the cost of material only, which would be less expensive to the abutter than a Village project, where the abutter pays one half of the total cost of the sidewalk.

The individual payment checks in the Village General and Water Department accounts, a total of nearly 1900 this year, exceeded the total number of checks drawn last year by more than thirty percent; therefore, it seemed advisable to omit printing this long list again this year. Once more, I wish to remind you that complete records of these individual payments are on file at the Manager's office and I would gladly have any interested persons come in and thoroughly inspect them at any time. Only a few people availed themselves of this opportunity last year.

I sincerely believe that it is the co-operation and backing given to your present manager by the citizens and Village officers which has resulted in the better and more economic administration of the past year, and I wish to take this opportunity to thank the trustees, other Village officers, heads of Departments, Village employees and Citizens of the Village of Middlebury for their co-operation and assistance.

Respectfully Submitted,

ELWIN C. BOYDEN

POLICE REPORT

To the Municipal Manager:

I herewith submit the annual report of the Police Department for the period ending December 31, 1940.

The following arrests were made during the year:

Intoxication	7
Vagrancy	1

All persons arrested were convicted.

I have received much valued assistance from the officers of the Motor Vehicle Department, Special Officers of Middlebury Village, High Sheriff and his Deputies in the performance of my duties for which I express my appreciation.

Respectfully Submitted,

RALPH E. KELTON

Chief of Police of Middlebury Village.

REPORT OF THE CHIEF OF THE FIRE DEPARTMENT

To the Municipal Manager:

The following report and inventory taken December 31, 1940, is herewith submitted.

Ten general alarms and seventeen still alarms have been answered in the village. Eight out of town fires have been responded to. From these outside calls the village has received \$56.50 uncollected from the previous year, and \$160 for the year just ended, with \$74 outstanding.

The alarm system has been checked every two weeks and serviced if found necessary. This year it has been used nightly for the curfew to aid in checking its workability.

The following recommendations are made: that 300 ft. of 1½ inch single jacket hose; 4 later type nozzels and 6 hydrant wrenches be purchased. For the preservation of the property, the exterior trim of the Fire House should be painted.

INVENTORY

	Estimated, de- preciated value
Building—Fire Station -----	\$10,000.00
1 1928 American La France Pumper -----	5,500.00

WATER DEPARTMENT

MUNICIPAL MANAGER'S REPORT

To the Board of Water Commissioners and Citizens of the Village of Middlebury:

Submitted herewith is the annual report of the Village of Middlebury Water Department for the year ending December 31, 1940.

Our distribution system consists of approximately twenty-five miles of water mains, ranging in size from four to ten inches in diameter, seventy-five hydrants, six hundred and fifty-four services, and the following gates: 43 four inch, 44 six inch, 6 eight inch, and 10 ten inch.

Again this year, the operating revenue exceeded the operating expense by more than five thousand dollars, but it was deemed advisable and necessary to spend approximately four thousand dollars on new mains, hydrants and meters which will give better service and bring in more revenue in future years.

All business blocks, farms, feedstores, overnight cabins, gas stations, and garages have been metered this past year, with practically no decrease in income, but with a decided decrease in pumping expense. Part of this decrease in pumping expense can be attributed to a better gravity supply, during the past year, and the balance in this decrease was, of necessity, better water conservation at metered services. Metering is, of course, the most fair and even distribution known, as the customer pays for just what he uses. If he conserves water, his bill would normally be lower than a flat rate charge, and if he wastes water, his bill would be higher.

I wish to call to your attention the list of delinquent water bills, which, at approximately one hundred and seventy-five dollars, is the lowest that the Water Department has ever had at the end of any year. This list should be kept to a minimum, as we are given authority by the legislature and the tax-payers to shut off services which have unpaid water bills, and it is our duty to the taxpayers to see that this policy is followed.

We are still holding twelve thousand dollars in 4% Refunding bonds, while we borrowed money this year at an interest rate of $\frac{3}{4}$ of 1%.

The major accomplishments in construction for the past year are as follows: cleaned Bristol Notch small brook reservoir for emergency use, laid 180 feet of 4 inch main around chemistry building to supply Munroe Hall, laid 600 feet of 6 inch main on Shannon street, laid 700 feet of 6 inch main on Seymour street from Elm

street to Methodist Lane, W. P. A. labor laid 255 feet of 6 inch main on Maple street, we constructed nineteen meter wells, installed forty-two meters, renewed three hydrants, installed two new hydrants, connected seven new services, renewed 28 services, repaired twenty-two leaks in services, and repaired fifty-four leaks in mains.

I wish to express my appreciation for the co-operation and assistance given by the Board, the employees, and citizens in making this a very successful year for the Water Department.

Respectfully Submitted,

ELWIN C. BOYDEN

Municipal Manager

WATER DEPARTMENT AUDIT

H. L. Cushman, Treasurer

For year Ending December 31, 1940.

TO THE VOTERS OF THE VILLAGE OF MIDDLEBURY:

We have made an examination of the accounts and vouchers of the Village and Water Department, as submitted to us by the Municipal Manager and Treasurer, for the twelve months period ending December 31, 1940, and have reconciled the various cash balances with their respective bank statements. The securities in the custody of the Treasurer, carried as an investment for the Water Department, have been checked and found in order.

In our opinion these records fairly set forth the financial condition of the Village and Water Department as of December 31, 1940 and the transactions for the twelve months ending on that date.

J. WILBER SMITH

ROBERT D. BOWLES

Auditors

Middlebury, Vt.
January 6, 1941

ANNUAL VILLAGE MEETING, 1941.

WARNING.

The legal voters of the Village of Middlebury are hereby warned and notified to meet at the Town Hall in said Village, on Wednesday, January 15th, 1941, at 10:00 o'clock A. M. to transact the following business; to-wit:

First—To elect Village Officers for the year ensuing. (Australian Ballot-polls open from 10 A. M. to 2 P. M.)

Second—To act upon the reports of the Village Officers submitted by the Auditors.

Third—To see if the Village will vote to appropriate a sum of money for the District Nurse Fund and if so, how much.

Fourth—To see if the voters will authorize the Trustees to spray the trees in the Village at the proper time next Spring and if so, to appropriate the necessary funds.

Fifth—To see if the voters will amend the By-Laws by adding thereto the following By-Law, to be known as Section 13, Article 11 $\frac{1}{4}$:

A person shall not park nor leave standing any vehicle, whether attended or unattended, upon the paved or improved or used part of any highway within the Village, so as to interfere with traffic on such highway, unless some engine, mechanical or other trouble renders it impossible to move such vehicle on its own power.

Sixth—To see if the voters will vote to authorize the Trustees to authorize the erection of a marker in memory of Emma Willard within that portion of the public parks situated in front of the Congregational Church and bounded by Pleasant, Seymour and Main Streets, such authorization not to involve expense to the Village.

Seventh—To vote a tax for maintaining and repairing roads and walks in said village.

Eighth—To see whether the voters authorize the Trustees to fix up Main Street Park as petitioned by C. F. Rich and others, and if so, to vote the necessary tax therefore.

Ninth—To vote a tax to pay the expenses for the ensuing year and to pay outstanding orders and obligations of the Village and interest.

Tenth—To transact any other business proper to be done.

The meeting is called at the above hour because of the legal requirement that in the election of officers the polls shall close at two o'clock in the afternoon; it is expected that at the close of the election of officers, the meeting will be adjourned to the usual hour of eight P. M. for the transaction of other business noted in the above warning.

By Order of Trustees,
HARRY L. CUSHMAN,
Village Clerk,

Middlebury, Vermont
January 2nd 1941.
